Dates from the States are to July 1st.

The Democratic party is hopelessly divided. The Baitimore Convention has nominated Stephen A. Douglas, of Illinois, for President; and H. V. Johnson, of Georgia, for Vice President. The Seceders Convention at Richmond have nominated John C. Breckenridge, of Kentucky, for President; and Joe Lane, of Oregon, for Vice President; the Republicans are overjoyed with the split in the Democratic ranks. By many thinking persons a dissolution of the Union is looked for, in case of the election of Lincoln, the Republican candidate. The whole country is agitated by the movements of the political wire-pullers. Gov. Wise supports the Breckenridge ticket. Stephens, of Georgia, supports Douglas and Johnson. The Democracy are uniting their party in the different States to hold a Convention and nominate one ticket or the other, thereby to the different States to hold a Convention and nominate one ticket or the other, thereby to get a popular expression. This will give Douglas and Johnson every State they would have carried in the event of their having been no other nomination, [provided South Carolina and the other seceding States will support them].

#### Victoria Election Case

This case, which has caused such general interest, after being nearly four months be-fore the Assembly in a dormant state, is at last revived by being called up three times before the Election Committee. Nothing but a few preliminary questions have yet been settled. The merits of the case are still untouched. Whether they ever will be decided, it is difficult to tell, at the rate at which the case has been moving. The question now before the Committee is whether the revised lists of voters may be opened. Yesterday was consumed in hearing counsel on both sides. The defendant's counsel opposed opening the lists; whilst the counsel for the petitioner maintained that the lists were not conclusive; but that a notorious fraud had been committed by some twenty alien negroes registering them-selves and voting for defendant; that the Reviser's decision only extended to the set-tlement of disputes; that the Reviser had only certified to the property qualification of voters, and not as to whether they possessed the other qualifications, such as being Brit-ish subjects, or resided the requisite time in the country; and that, therefore, both on the ground of fraud-which vitiates every transaction-and the incompleteness of the revised lists, he claimed that the list should opened. The Committee, after deliberating in secret for an hour or two, adjourned till to-day, at eleven o'clock, when their decision will be given.

No one believes for a moment that Frank lin is entitled to a seat in the Assembly. It is now too well known that he has been illegally returned through the fraudulent conduct of the lowest type of humanity Should the lists, therefore, not be opened, the result will be a standing disgrace to the country; and in that case we fear that the Committee will have to make an able showing if they escape public censure. The fraud is so notorious that it is impossible to see any reason why the lists were not opened Beiligo Langutelay, if the object were to disever, decide to open the entire lists, as they ought, if they desire purity in the elections, then the merits of the case will be tried, and it will be soon determined who has and who has not the majority of legal voters; and who is entitled to represent Victoria, whether Franklin or De Cosmos. Fair play is all we ask. Shall we have it?

GENERAL HARNEY .- The following item, from the San Francisco Herald, takes the same view expressed by us in Thursday's COLONIST, in regard to the recall of General Harney:

Harney:

In one of the Eastern papers it is suggested that the real purpose of the withdrawal of General Harney from the Pacific coast and his employment elsewhere, is to free the San Juan Island question from one of its principal difficulties. The misunderstanding between the Governments of the United States and Great Britain wears amore serious aspect than the public generally suppose. The negotiations have been of a strictly private character, and therefore, the precise condition of affairs is not understood.

SOUNDINGS IN THE HARBOR .- A little over a year ago, Harbormaster Nagle took soundings of the depth of water at and wenty feet off from the various wharves of Victoria. A few days ago, he repeated the task, and the result shows a considerable decrease in the depth of water. Elsewhere will be found tables of the soundings for each year, which shows conclusively that our harbor is shoaling rapidly. The average filling up at each wharf is about two feet and a half, and in some instances there is a difference of three feet between this and last year's soundings. The tables will be found very interesting, and are compiled from the official documents in the Harbormaster's office.

On DIT .- That a barrister of the sister colony has officially signified his intention of retiring from the Bar, owing to the tardiness, irregularity, and inconsistency of the proceedings in the Supreme Court, which, it is said, he has specified and commented on in strong, outspoken terms in a commu-nication to the judge thereof. Perhaps a copy of the document may turn up at an early day.

HUBBS AND HAYDEN .- These two young men, arrested a few days ago on a charge of selling whisky to Indians near Fowl Bay, were yesterday found guilty of the offense and fined £20 each, or in default, sentenced to three months' exercise in the chain-gang. It is thought that Hubbs' fine will be paid.

#### Another Man Stabbed to Death.

On Saturday evening last, at about seven o'clock, a difficulty occurred on the Saanich road, near Dr. Tolmie's house, between two men, named George Snelling and Edmund Simonds, which resulted in the fatal stab-bing of the latter. Snelling is employed on a ranch in the country, and was on his way home when the difficulty occurred, while Simonds was reeling about on the road, seeming scarcely able to help himself.
Simonds was found lying on the road a short time after the occasion, and conveyed to the Royal Hospital, where he breathed his last in a few moments after reaching there. Snelling immediately after committing the deed, came into town, and gave himself up to the police, stating that he had stabbed the man in self-defense, while the latter was trying to rob him. Doctor Dickson yesterday summoned a jury and held

latter was trying to rob him. Doctor Dickson yesterday summoned a jury and held an inquest on the body:

Wm. Robinson (colored) sworn—About 7 o'clock on last Saturday evening, saw the prisoner and deceased walking towards town; both men seemed drunk, and the deceased very much so; they were talking loud; presently the prisoner said, "You d—d thief, you tried to rob me?"; he then grappled with deceased, threw him down, got astride of his breast, and raising his hand, struck him (as I then thought) with his first; but when he raised his hand again, I saw he had a knife in it; there was blood on the knife when he raised it; the prisoner shortly afterwards got on his horse and rode into town, as he said, to give himself up. The deceased lay still on the ground; thought he was dead, and started into town to get assistance, and watch that the prisoner gave himself up; the deceased was very drunk—too much so to have robbed the prisoner; he seemed begging to belet off, just before he was stabbed; the prisoner could have got away from deceased with great ease, if he had seen fit to do so; when the deceased lay on his back with the prisoner on top of him, he did not have hold of him.

A. L. Newby, a colored man, testified that between 5 and 6 o'clock, he saw the prisoner riding along the road ahead of deceased, who was very much intoxicated; prisoner asked me to hold his horse; I did so, and he got off and went back, picked up a big stick and struck deceased a heavy blow on the forehead with it; deceased did not fall, and a moment after prisoner offered him a drink so fliquor out of a bottle which he had tied to the saddle on his horse; while he was getting the liquor, deceased tried to strike him but prisoner turned and offered him the bottle, which, after some sparring on the part of the deceased, he took, but didn't drink any; we came along into town, and left them in the road talking.

Andrew McLean testified about the same the case until Wednesday, at 10 'o'cfock', in the case until Wednesday, at 10 'o'cfock', in th

the case until Wednesday, at 10 o'clock, A. M. Quite a little breeze was raised before the witnesses had been called, by one of the jurymen stating that he believed Geo. E. Nias, another juryman, was incompetent to serve, he having expressed an opinion as to the motives which induced the prisoner to kill deceased, the day previous; and furthermore, that his evidence might be required during the progress of the inquiry.

The Coroner said Mr. Nias had came to him in the morning, and requested to be placed on the jury; but that having heard from respectable sources that he was biased, he had declined to put him on. Subsequently, however, finding that he was short of jurymen, he had consented to place him upon the list.

of jurymen, he had conserved to place him upon the list.

Mr. Nias rose and declared that he was unbiased; that he had got on the jury to give the prisoner a fair trial, etc.

Mr. Duncan (juryman) said he had no doubt Mr. Nias was incompetent to serve; and that he could not, having expressed an acciding and the accused having been emopinion, and the accused having been employed by him, give an impartial verdict.

The Coroner replied that it was too late to put him off now, and he would have to

The fatal wound was in the neck, the knife passing between the jugular vein and the windpipe, under the collar-bone, and thence through into the chest. All accounts agree that Simonds was very drunk at the time, and Snelling himself rather tipsy. Whatever may have been the causes which led to the killing, it is certain that at the time the fatal injury was inflicted, Simonds was unable to help himself, and was completely at the mercy of his antagonist. The story of Snelling, that three men had attacked him for the purpose of robbery, and that he had killed the deceased while defending himself, needs corroboration. Other facts, however, may be elicited to-morrow, before the coroner's jury, which will throw an al-together different light on the matter. At present the evidence tells fearfully against the prisoner.

Col. E. D. Baker, the well-known California orator, is among the passengers Apply to J. A. McCREA by the Oregon, from Portland.

THE CAPTAIN OF THE OREGON STABBED. -We learn from a passenger that Captain Wm. H. Hudson, of the steamer Oregon, was stabbed in the left breast, about four days ago, while the vessel was descending the Columbia River. The captain's wound was of sufficient severity to confine the captain to his room until yesterday, when he made his appearance on deck, for the first time since the occurrence. The sailor is in custody. The cause of the stabbing we did not learn.

TERRIFIC .- Yesterday morning, Victoria was visited with a heavy fall of rain, accompanied by thunder and lightning. For several hours the vivid flashes of lightning and heavy peals of thunder were almost inces sant, frightening nervous folks out of their propriety, and sending old ladies to bed with sick headaches. Pioneer settlers say that "heaven's artillery" has not enjoyed such a spree in this neighborhood for the last nine years.

A GRAND UPSET .- While Parker's omnibus was returning yesterday noon, from Esquimalt, with a load of passengers from the steamer, the axletree of the vehicle snapped in two, and the occupants (fourteen in number) were deposited in the miry road. Beyond a few slight bruises, a number of torn dresses and coats, and a terrible fright, the passengers sustained no injury. The accident occurred near the Half-way House.

RUNAWAY .- A couple of horses, attached to a large wagon, yesterday morning started from the front of McCrea's auction room, on Wharf street, and ran up Yates street at a furious pace. Opposite Fellow's hardware store, a man named Sampson, at the peril of his life, seized the horses' bridles, and after being dragged some distance, succeeded in stopping them. The feat excited the admiration of the beholders.

WHISKY CASES. - Arthur Wiggins and Wm. Mills, negroes residing on Humboldt street, were arrested by Serg't Carey, on Saturday evening, on a charge of giving squaws whisky. Wiggins was fined £10, in default, two months in the chain-gang Mills was remanded for further testimony Antonio Sabash was up for giving a bottle of whisky to a squaw. His case was remanded until this morning.

A House-Warming .- The elegant new brick building at the corner of Yates and Bros., was opened for a warming on Saturday evening last. Champagne corks flew, toasts were drank, and success wished the worthy proprietors. The store is one of the finest on the coast.

THE "BREAK" IN THE CHAIN-GANG. Frederic O'Leary, one of the prisoners who escaped from the chain gang on the 27th ult., was yesterday examined in the Police Court for the offence, and sent to the Court of Sessions.

#### To Contractors and Builders.

REPEATED COMPLAINTS OF UN-REPEATED COMPLAINTS OF UNThirmses have been expressed in connection with
most of the large jobs given out during the season,
and the terms "favoritism." bribery," e.c., have
been freely used. In view of this, I deem it proper
to say, that as I have vade arrangements with Mr. J.
D. Carroll, to prepare Desigus, Plans, and Specificathat I will not bid on the work. And believing, as I
do, that it is unfair, and that an architect should not,
under any circumstances, tender in competition with
contractors, for work over which he has the superintendence. I pledge myself, that whenever called upon
to perform the services and duties of an Architect, I
shall confine myself exclusively to those duties, and
not interfere with those who tender for the work.
Mr. Carroll's Building is fairly in the market for tenders, and every care will be taken to decide the matter without havor or prejudice to an one.

TESTIMONIAL TO E. F. LANGFORD, ESQ. -Below will be found the copy of a communication addressed to E. E. Langford, Esq., accompanied by a donation of \$500. The object of the donation was to defray the costs of suit against Mr. E. H. King, which was lost by Mr. Langford. The gentlemen signing the letter afford the best guarantee as to the interest felt in the result of the suit; and the sum subscribed shows that wrong cannot be perpetrated with impunity, John Coles, Esq., is a member of the House of Assembly; James Yates, Esq., is an Exmember of Assembly; and Capt. George Henry Richards is Captain of H. M. S. Plumper:

Henry Richards is Capitain of H. M. S. Plumper:

To Edward E. Langpord, Esq.:—Sir,—We desire, on the part of numerous subscribers, to request your acceptance of the inclosed five hundred dollars (\$500), for the purpose of defraying the costs of a law-suit into which you entered with a view to the discovery of the author of a most insulting attack on the members of your family.

It is a matter of extreme regret to us, as we believe it is generally to the inhabitants of the neighborhood, that, with a good cause and right on your side, you should have failed to obtain that satisfaction which you were so fully entitled to expect; but you may be assured that, in the estimation of all right thinking and honorable persons, the high character which you and your family have ever sustained will be in no way affected by your failure to bring home to the anonymous offender an actrepugnant to the feelings of every honest man and to the usages of civilized society.

We are, sir, your obd't servants.

#### MINING AND OTHER NEWS

The steamer Wilson G. Hunt arrived from Fraser river about seven o'clock on Satur-day evening. Ballou's Express had \$14,-

00; Jeffray's ; and in private hands There were about 14 passengers. 165 packs of valuable furs, from New Caledonia consigned to the Hudson Bay Company also came down on the Hunt.

Another train of mules has just arrived at Fort Hope from Rock Creek. The men in charge report everything very favorable on Rock and Kettle creeks. Gold has been discovered on all the tributaries of Okanagan and the Similkameen rivers. About 200 men are engaged in mining there and are taking out their "piles" of the pre-

"Grub" is very scarce on Rock Creek and tools not to be had at any price.

The train intends returning to the new diggings immediately with a full supply of everything needful.

At Black Rock Bar, on Rock Creek, on the 10th instant, Frank Porter and David Barr had a difficulty about a mining claim, when Porter shot Barr through the stomach. Barr died instantly; and at last accounts the murderer had not been arrested.

The last news from Quesnelle River is represented as not encouraging.

Fraser River is rising again, owing to the warm weather.

[We are indebted for the above items to H. Lee Alley, Esq., of Ballou's Express Company.

#### Letter From Port Douglas.

PORT DOUGLAS, July 18, 1860.

EDITOR BRITISH COLONIST.—In passing over this portage several times lately, I have had an opportunity of seeing what has been done by the opportunity of seeing what has been done by the road makers. The road is what is called finished from here to the Rocky Bluff, near the twenty-mile or Hot-Spring House; but if the contract reads like some other contracts in the Colony, namely—that the road is to be made "hard and smooth," it certainly falls very far short of it. From one end of the road to the other, except in places where there is no stone, it is covered loose stone, from the size of a man's head down noise stone, from the size of a man's nead downwards, in sufficient quantities to prevent any advantageous teaming; and unless that very useful body of men, the Sappers and Miners, or some others, are sent over the track again to break or the stone of the randowly he for the stone of the same of the same will be a form. move them off, the road will be of very little use

body of men, the Sappers and Miners, or some others, are sent over the track again to break or move them off, the road will be of very little use for wagoning this season. Teamsters and packers say, that in the present condition of the road, more can be packed on mules backs than in wagons; besides, in many places, the banks of the cuttings are beginning to fall down, and unless something more is done, the road will be impassable when the first rains set in.

The Sappers have made the first nine miles from here; and the next mile to the ten-mile House was made by parties on a separate contract. By appearance, the latter certainly seems to be made as well as the best of the whole road.

From the ten-mile House to the sixteen-mile House the road was made by J. W. Trutch, Esq., with about 40 men, inside of six weeks; proving what many good practical men have said, who are well acquainted with the road, that if properly managed, the road could have been made throughout for much less money than has already been spent upon it by a bungling government, who advertise for tenders in such a manner that none but a pet lot of officials and speculators (two hundred miles from the road to be contracted for) can icarn anything about them; thus excluding many, who are well acquainted with the line of road, and who would be glad to tender for sections of it, but are unwilling to run the risk of traveling to Victoria to compete (as is generally supposed here) with a sett who have the "fat jobs" aiready "cut and dried" for them.

The next part of the road, to the Hot Spring House was made by Captain Grant's Engineers and others and is faished like the rest; leaving about eight milen still to be made to the Little Lake, on which the Sappers are now engaged.

The beautiful little steamer called the "Marzelle" is now running regularly on Lilloost Lake. She is owned by parties, who but for their eneptity, would certainly deserve er slit for their enterprise. They think they have the monopoly of the Lake, and demand higher prices for

#### The Victoria Light Petition.

The Victoria Light Petition.

Editor British Colonist:—In a late issue of your aluable paper, an inquiry was made as to what had become of the "Petition" for the light that was creeted at the entrance of Victoria harbor. I wish you would be kind enough to find for us, as we are anxious to have the light re-lift once more. We have spoken to almost all the traders on the coast, and that with pleasure willing to pay a light tax, and that with pleasure. We heard that Mr. Southgate, the member for Salt Spring Island, took charge of the petition; but what he has done with it, or whether he presented it or not, we cannot find out. Knowing you to take a deep interest in the welfare of the Island, as well as in the harbor, we solicit your kind attention to this important matter, and by so doing you will confer a great favor on a large number of Coasters.

Wells, Fargo & Co.'s obliging agents, and Jerry Sullivan, of San Francisco, placed us under obligations for files of East-

# ANTI-RHEUMATIC CORDIAL

### Health Restorative

Health Restorative

Is THE MOST VALUABLE AND UNsurpassed remedy for Rheumatism and Gout to be found in the world, or known at present. The discovere of the above medicine does claim is infallibility in all cases of Rheumatism and Gout—when used according to direction—and does offer a reward of five thousand dollars to any medicine three superseds it, and is entirely vegetable. The control of the supersed it, and is entirely vegetable. Count of his laving used the above medicard of the entire three controls and the supersed of the above that the case of Rheumatism and Gout, the websterood all known remedies to the profession. Doctor Adolphus is known and rightly celebrated throughout the State, for his cures in Rheumatism, Gout and Chronic Diseases, and has only to the continued urgent efforts of his patients, and through the desire to help them who are not enabled to see him personally, or to spend a fortune to get rid of the disease, which they have contracted in the pursuit of their daily calling; only this has been able to persuade the Doctor to give the above medicine to the public, and at such terms that every suffering one should be able to reap its benefits.

As a Health Restorative its value supersedes all the mineral wealth and riches of California; and is creating a revolution in the whole treatment of disease, throughout the world. In secondar the Glands, Drops, and all Nervous and Cataneous Diseases, and the whole train of Chronic Diseases, which withstand and baffle the skill of the most excellent and learned physician in the world; in Chronic Diseases whose very name is a terror as well to the physician as to the patient, this medicine has proved to be superior to any in exist ence, and has cured in so short a time that they appeared like being abolished by magic influence, and in fact a few more such discoveries, and drugdist will not need to keep a lot of useless medicines on land, whenever they are prescribed once in a tercore they have lost through time their properties in which their value di

which their value dur reside. It there was actuarly any in them.

Take this medicine when your digestive organs are lisordered and your blood ir impure, it will surely tet on your bowels.

Take this medicine when you have a cold, and it will make you perspire freely.

Take this medicine when your urinary and absorbing organs are disordered, and it will act on your didneys—it penetrates every part of your body, earches even the most remote and secret recesses of our system, and removes the disease located there—t restores healthy action and gives tone to every year in the human body—therefore it has righteous-

organ in the human body—therefore it has righteonically deserved the name it bears; IEALTH RESTORATION of the human body—therefore it has righteonically deserved the name it bears; IEALTH RESTORATION of the human body—therefore it has righteonically deserved the name it bears and the human body—therefore it has been and every sufferer to be his own physician for use, made every sufferer to be his own physician in the above named diseases.

Thinking it under my dignity to tollow the mode of quacks, by appending certificates of physicians or private persons, which is too well known can be had for certain renuncrations, applications of friends, or by the mode of boring a man half to death for even the most worthless trash, I will therefore leave it to those in want of medicine to inquire personally of men who have been cured by my medicines of the above diseases, and who can be found in almost every city and village throughout the State. I consider such personal conviction far superior to certificates of persons that are far from being known to them in want of medical sid.

But should are grading the cures performed by this medicine, they might call at my office, and I will show them certificates of true merit, which have been sent to me voluntarily, without applying for them, or by bering individuals to get them.

To satisfy the most scrupulous of men, also as a quarantee to those that have not had the opportunity of knowing the Doctor by reputation or personally, I have adjoined to every bottle of the Anti-Rheamatic Cordial, the certificate, under oath, of one of the most celebrated analytical chemists in the United States. Hat there are no minerals nor poisons contained in this medicine, all has a very strong action on the luman system, which it necessarily must have, to overcome the effective forms and the superior of the most celebrated analytical chemists in the United States.

TO PREVENT BALDNESS, RESTORE Unir that has failen off or become thin, and to cure effectually seur or Dandruff. Prepared only by . W. D. MOSES.

### FOR THE TOILET.

This Invigorator is most particularly for Ladies after illness, to be used with the Oil prepared by the proprietor. First saturate the head with the Invigorator; rub well with a hair-brush; then Oil. It will also relieve the headache, and give the hair a darker glossy color, and the free use of it will keep both the akin and hair in a healt y state.

Ladies will find the Invigorator a great addition to the toilet, both in consideration of its delicate and agreeable perfune and the great facility it affords in dressing the hair, which, when moist with it, can be dressed in any required form so as to preserve its place, whether plain or in curls. When used on children's heads, it lays the foundation for a good head of hair. Prepared only by W. D. Mosss, Government street, Victoria, V. 1., opposite the Post office. jy? II
